Comments from the CEO

Solid RevPAR development and a good quarter for signings

“RevPAR recovery continued during the second quarter of 2015 and culminated in a strong month of June, driven by Eastern European countries outside Russia and by mature Western European markets. However, weak RevPAR development in some of the countries in the Middle East and the difficult business climate in Norway still impacted the results.

We made strong progress in pursuit of our growth strategy: achievements included the 25 years contract extension for one of the Group’s most profitable leases in Norway, and the signing of a total of 15 new projects with almost 2,500 rooms under management and franchise agreements. Most of these hotels are situated in emerging markets and focus countries and scheduled to open within the next 12 months.

Q2 signings featured the first Radisson Red in EMEA: the Radisson Red V&A Waterfront Cape Town – located at one of Africa’s premier sites and opening in late 2016 – marked the roll-out start of our new lifestyle select brand. We see strong interest in the market, and will drive the development of Radisson Red through flexible business models together with experienced partners.

We also continued to make progress on our profit improvement initiatives as evidenced by the strong performance in operating cash flow. At the same time, we further drove our investment programme supported by the 2014 rights issue, and have launched an accelerated Capex deployment that will result in almost 8,000 refurbished rooms in the Nordics and Rest of Western Europe by the end of 2017.”

Wolfgang M. Neumann, President & CEO

Market RevPAR Development YTD May

Market RevPAR across Europe was up 5.3% (at constant exchange rates) for the first five months of the year. The improvement was a result of a 2.9% increase in average room rate and a 2.3% increase in occupancy.

The RevPAR growth of 2.0% in the mature Western European markets was via both occupancy and room rate. All key markets experienced positive growth with the exception of Switzerland.

In Northern Europe, the growth of 5.6% was also via both room rate and occupancy, with Ireland leading the way. In the Nordics, Denmark and Sweden had positive developments, but Norway and Finland were down compared to last year.

Eastern Europe reported a very strong RevPAR growth of 10.5% via both occupancy and room rate. The key drivers being the Czech Republic and Poland, which off-set the decline in Russia.

Trading in the Middle East and Africa was also positive with RevPAR up 1.6% via improvements in occupancy and room rate. The development by country was mixed with

Egypt leading the growth followed by Lebanon, but with other markets performing below last year, including Oman, the United Arab Emirates and Saudi Arabia.

Rezidor RevPAR Development Q2

L/L RevPAR for leased and managed hotels improved by 4.9% compared to last year with growth in both average room rate and occupancy. L/L RevPAR for leased hotels increased by 4.0%, primarily via average room rate.

Three of the four regions reported L/L RevPAR growth over last year. The strongest development was in Eastern Europe, followed by Rest of Western Europe and the Nordics. The only region below last year was Middle East, Africa & Others, where the key challenges were Saudi Arabia and the United Arab Emirates.

Reported RevPAR growth was up 6.3%. It was positively impacted by 1.7% due to the weakening of the Euro but negatively by 0.3% via new openings and off-line hotels.

Income Statement

Second quarter 2015

Total revenue increased by 6.8%, or MEUR 16.7, to MEUR 263.8. The increase was mainly due to the positive RevPAR development, the conversion of two hotels in Oslo from management contract to lease as from year-end and the weakening of the Euro.

On a L/L basis revenue increased by 4.7%, reflecting the positive RevPAR development and an increase in F&D revenue.

The change in revenue compared to last year is presented in the table below.

MEUR	L/L	New	Out	FX	Change
Rooms Revenue	5.7	1.7	-0.6	2.2	9.0
F&D Revenue	2.4	1.0	-0.2	0.9	4.1
Other Hotel Revenue	-1.1	0.0	-0.6	0.3	-1.4
Total Leased Revenue	7.0	2.7	-1.4	3.4	11.7
Fee Revenue	3.5	0.9	-1.1	0.6	3.9
Other Revenue	1.1	-	-	0.0	1.1
Total Revenue	11.6	3.6	-2.5	4.0	16.7

EBITDA increased by MEUR 2.8 to MEUR 33.6. The earnings were positively impacted by the good RevPAR development, stronger F&D business and lower net costs of MEUR 1.3 for the hotel closed for renovation in Lyon. In addition, last year's numbers were negatively impacted by costs related to the disposal of the shares in Casino Copenhagen of MEUR 0.6.

The net positive impact of the above mentioned factors was partly off-set by weak conversion in the Nordics, changes in provisions for bad debts of MEUR 2.6 and increased central costs of MEUR 1.4. Furthermore, the central marketing costs increased MEUR 1.0, primarily due to timing of activities.

Rent as a percentage of leased hotel revenue continued to improve and was 27.4% (28.5). The weakening of the Euro had a positive impact of MEUR 0.3 on EBITDA.

EBIT increased by MEUR 1.6 to MEUR 23.0. The increase in EBITDA has been partly off-set by higher depreciation costs, reflecting the increase in investments.

Profit after tax amounted to MEUR 15.4 compared to MEUR 14.1 last year.

Six months ended June 2015

Total revenue increased by 4.7%, or MEUR 21.7, to MEUR 480.2 (458.5). The increase was mainly due to the positive RevPAR development, the conversion of two hotels in Oslo from management contract to lease as from year-end and the weakening of the Euro. On a L/L basis revenue increased by 2.7%.

The change in revenue compared to the same period last year is presented in the table below.

MEUR	L/L	New	Out	FX	Change
Rooms Revenue	7.8	2.8	-1.0	3.4	13.0
F&D Revenue	1.4	2.0	-0.3	1.1	4.2
Other Hotel Revenue	-1.0	0.0	-1.1	0.4	-1.7

Other Revenue	1.3	-	-	0.0	1.3
Total Revenue	12.3	7.6	-4.4	6.2	21.7

EBITDA increased by MEUR 2.7 to MEUR 32.8. The earnings were positively impacted by the RevPAR development and lower net costs of MEUR 2.7 for the hotel closed for renovation in Lyon.

The positive impact of the RevPAR development and Lyon was partly off-set by increased central costs of MEUR 3.8 and changes in provisions for bad debts of MEUR 2.8. Furthermore, the central marketing costs increased MEUR 3.8, mainly due to timing of activities.

Rent as a percentage of leased hotel revenue was 29.1% (30.0). The weakening of the Euro had a positive impact of MEUR 0.3 on EBITDA.

EBIT decreased by MEUR 2.3 to MEUR 10.6, as the increase in EBITDA did not make up for the increase in depreciation costs and write-downs of MEUR 5.0. Cash flow from operations (before working capital) showed significant improvements.

Profit after tax amounted to MEUR 2.0 compared to MEUR 3.8 last year.

Q2 Comments by Region

Nordics

MEUR	Q2 2015	Q2 2014	Change
L/L RevPAR, EUR	102.0	98.3	3.8%
Total Revenue	118.2	116.8	1.2%
EBITDA	15.6	16.6	-6.0%
EBITDA margin, %	13.2%	14.2%	-1.0 pp
EBIT	10.7	12.2	-12.3%
EBIT margin, %	9.1%	10.4%	-1.3 pp

L/L RevPAR increased by 3.8% with average room rate growth off-setting a slight decline in occupancy. In Denmark (6.1%) the growth is mainly linked to the ECCMID congress in Copenhagen in April. In Norway (4.6%) the impact of the bi-annual NorShipping and other events in Oslo in June resulted in the strong performance in the quarter with Sweden (1.0%) also above last year.

Total revenue increased by MEUR 1.4 (or 1.2%) compared to last year, largely due to the conversion of two hotels in Oslo from managed to lease and the RevPAR development, partly off-set by the weakening of the Norwegian krona.

The decrease in EBIT of MEUR 1.5 is mainly due to weak conversion in Norway in particular and an increase in costs for depreciations.

Rest of Western Europe

MEUR	Q2 2015	Q2 2014	Change
L/L RevPAR, EUR	92.2	86.2	7.0%
Total Revenue	127.5	116.2	9.7%
EBITDA	18.5	12.3	50.4%
EBITDA margin, %	14.5%	10.6%	3.9 pp
EBIT	12.8	7.5	70.7%
EBIT margin, %	10.0%	6.5%	3.5 pp

L/L RevPAR grew by 7.0% via both average room rate and occupancy growth. The key drivers were Ireland (19.3%), the UK (6.3%) and Germany (6.0%), with all other key markets also reporting RevPAR growth with the exception of Switzerland (-2.1%).

Total revenue grew by MEUR 11.3 (or 9.7%) compared to last year, due to the strong RevPAR development and the appreciation of the British Pound.

The increase in EBIT of MEUR 5.2 is mainly due to the increase in revenue and that the results for the hotel closed for renovation in Lyon improved by MEUR 2.8 compared to last year due to lower net costs.

Eastern Europe

MEUR	Q2 2015	Q2 2014	Change
L/L RevPAR, EUR	59.8	53.5	11.9%
Total Fee Revenue	10.8	9.6	12.5%
EBITDA	8.1	9.2	-12.0%
EBITDA margin, %	75.0%	95.8%	-20.8 pp
EBIT	8.1	9.1	-11.0%
EBIT margin, %	75.0%	94.8%	-19.8 pp

L/L RevPAR improved by 11.9% via average room rate and occupancy. The highest growth was noted in the Baltics (15.6%) with the key factor being the EU Presidency in Latvia. Russia, 11.3%, benefitted from the Economic Forum in St. Petersburg and increased domestic travel (a result of the current political situation). Poland, 7.8%, also had a strong quarter due to an increase in congress related business.

Fee revenue increased by MEUR 1.2 (or 12.5%), mainly due to the strong RevPAR development.

EBIT decreased by MEUR 1.0 (or 11.0%) compared to last year. Q2 2014 was positively impacted by reversals of provisions for bad debts and reversals of shortfall guarantees and as a consequence the 2014 margins were higher than normal.

Middle East, Africa and Others

MEUR	Q2 2015	Q2 2014	Change
L/L RevPAR, EUR	60.9	65.0	-6.3%
Total Fee Revenue	7.3	5.5	32.7%
EBITDA	3.8	3.7	2.7%
EBITDA margin, %	52.1%	67.3%	-15.2 pp
EBIT	3.8	3.6	5.6%
EBIT margin, %	52.1%	65.5%	-13.4 pp

L/L RevPAR decreased by 6.3% with both occupancy and average room rate below last year. The country level performance is a mix of results. L/L RevPAR was strong in South Africa (up 18.3%), but there were challenges in Saudi Arabia (-17.2%) and the United Arab Emirates (-13.4%).

The increase in fee revenue of MEUR 1.8 (or 32.7%) is mainly due to the weakening of the Euro and an increase in incentive fees. Furthermore, last year's revenues were negatively impacted by issued credit notes related to fee receivables. That transaction had no impact on the profitability.

EBIT is flat compared to last year, since the increase in fee revenue has been off-set by net negative changes in provisions for bad debts.

Central costs

Central costs for the quarter amounted to MEUR 12.4 and were MEUR 1.4 higher than last year.

Comments to the Balance Sheet

Non-current assets increased by MEUR 11.8 from year-end 2014 and amounted to MEUR 261.9. The increase is mainly related to investments in tangible assets (MEUR 27.9) and translation of foreign operations, partly offset by depreciation and write downs (MEUR 22.2).

Net working capital, excluding cash and cash equivalents, but including current tax assets and liabilities, was MEUR -48.0 at the end of the period compared to MEUR -42.3 at year-end 2014. The change is mainly explained by an increase in accrued expenses, partly offset by an increase in prepaid expenses and accrued income.

Cash and cash equivalents decreased by MEUR 35.5 from year-end 2014 to MEUR 26.1 at the end of the period. Liabilities to financial institutions increased by MEUR 1.5 from zero at year-end 2014. The changes are due to the investments carried out during the period and dividend paid to the shareholders, partly off-set by the positive cash flow from operating activities.

Compared to year-end 2014, equity decreased by MEUR 3.4 to MEUR 216.0, with the profit for the period more than offset by the distributed dividend.

MEUR	30-Jun 15	31-Dec 14
Balance sheet total	452.9	427.5
Net working capital	-48.0	-42.3
Net cash (net debt)	24.6	35.5
Equity	216.0	219.4

Cash Flow and Liquidity

Cash flow from operations (before change in working capital) amounted to MEUR 25.9, an increase of MEUR 8.2 and mainly due the improved EBITDA and less cash taxes.

Cash flow from change in working capital amounted to MEUR -3.3, compared to -16.9 last year. The change is mainly related to accrued expenses and accounts payables.

Cash flow used in investing activities was MEUR 14.9 higher compared to last year, and amounted to MEUR -28.6, reflecting the increased capex spend in the leased business.

Cash flow from financing activities amounted to MEUR -3.6 (43.1). Last year's numbers included a rights issue of MEUR 58.6.

At the end of the quarter, Rezidor had MEUR 26.1 in cash and cash equivalents. The total credit facilities available for use at the end of the quarter amounted to MEUR 200.0. MEUR 0.8 was used for bank guarantees and MEUR 1.5 was used for overdrafts, leaving MEUR 197.7 in available credit for use. The committed credit facilities have a tenor of up to four years and carry customary covenants.

Net interest bearing assets amounted to MEUR 37.6 (46.3 at year-end 2014). The decrease was primarily due to use of cash and overdrafts to finance the increased investments.

Net cash (debt), defined as cash & cash equivalents plus short-term interest-bearing assets minus interest-bearing financial liabilities (short-term & long-term), equalled MEUR 24.6 (35.5 at year-end 2014).

MEUR	H1 15	H1 14
Cash flow before working capital changes	25.9	17.7
Change in working capital	-3.3	-16.9
Cash flow from investing activities	-28.6	-13.7
Free cash flow	-6.0	-12.9

Subsequent Events

There are no significant events after the end of the reporting period.

Material Risks and Uncertainties

No material changes have taken place during the period and reference is therefore made to the detailed description provided in the annual report for 2014. The general market, economic and financial conditions as well as the development of RevPAR in various countries where Rezidor operates, continue to be the most important factors influencing the company's earnings. In order to reduce the risks associated with operating in Emerging Markets, Rezidor applies an asset light business model. Management is continuously analysing ways to improve the performance of the hotel portfolio, currently with a particular focus on how to increase the profitability of the leased business in Rest of Western Europe. Future cash flow projections related to leases or management agreements with performance guarantees are sensitive to changes in discount rate, occupancy and room rate assumptions. Changes in such assumptions may lead to a renewed assessment of the value of certain assets and the risk for loss making contracts. The financial impact of exiting loss-making contracts is uncertain and it cannot be ruled out that an exit could lead to a cash outflow which is currently not fully reflected in the reported liabilities of the Group. The Parent Company performs services of a common Group character. The risks for the Parent Company are the same as for the Group.

Seasonal Effects

Rezidor is active in an industry with seasonal variations. Sales and profits vary by quarter and the first quarter is generally the weakest. The timing of Easter can have a significant impact on Earnings when comparing to the equivalent period for the previous year. For quarterly revenue and margins, see table on page 19.

Sensitivity Analysis

With the current business model and portfolio mix Rezidor estimates that a EUR 1 RevPAR variation would result in a MEUR 6-8 change in EBITDA. Future cash flow projections related to leases or management agreements with performance guarantees are sensitive to changes in discount rates, occupancy and room rate assumptions. Changes in such assumptions may lead to a renewed assessment of the value of certain assets and the risk for loss making contracts.

Report on Review of Interim Report

Introduction

We have reviewed the accompanying interim report of Rezidor Hotel Group AB (publ) (Corp. i.d. no. 556674-0964) for the period January 1 – June 30, 2015. The Board of Directors and the President are responsible for the preparation and presentation of this interim report in accordance with International Accounting Standard 34 'Interim financial reporting' and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the recommendation International Standard on Review Engagements (ISRE) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared in accordance with International Accounting Standard 34 and the Swedish Annual Accounts Act, and for the Parent Company the Swedish Annual Accounts Act.

Comments on the Income Statement

The primary purpose of the Parent Company is to act as a holding company for the Group's investments in hotel operating subsidiaries in various countries. In addition to this main activity, the Parent Company also serves as a Shared Service Centre for all hotels in Sweden.

The main revenue of the company is internal fees charged to the hotels in Sweden for the related administrative services provided by the Shared Service Centre. In Q2 2015 and YTD 2015 the intercompany revenue of the Parent Company amounted to MEUR 1.6 (1.6) and MEUR 3.2 (2.9) respectively. The intercompany costs in Q2 2015 and YTD 2015 amounted to MEUR 1.7 (1.8) and MEUR 3.4 (3.0) respectively.

The decrease in profit/loss before tax of MEUR 1.8 YTD is mainly due to that no group contribution was recognised in Q1 2015.

Comments on the Balance Sheet

At the end of the quarter the intercompany receivables amounted to MEUR 50.3 (31.3) and the intercompany liabilities to MEUR 0.7 (0.1). The changes in the balance sheet since year end 2014 are mainly related to changes in short-term intercompany borrowing and lending.

Incentive programmes

The AGM in 2013 approved a long-term equity settled performance-based incentive programme to be offered to executives within Rezidor. The programme is comprised of both matching shares and performance shares. The President and CEO and other members of the Executive Committee have been offered the opportunity to participate in the performance share part as well as the matching share part of the programme. Other key executives have been offered to participate in the performance share part of the programme.

In order to qualify for matching shares, each participant shall meet certain requirements, including a shareholding requirement of at least three years and continuing employment with the company during the vesting period. Exemptions may be prescribed in specific cases. In order to qualify for performance shares, each participant must, in addition to the requirement regarding continuing employment during the vesting period, meet a performance target based on Rezidor Group's cumulative earnings per share for the financial years 2013 to 2015.

Six members of the Executive Committee participate in the 2013 programme entitling them to a maximum total of 663,422 shares, of which the President and CEO is entitled to a maximum of 279,942 shares. 17 other members of management participate in the programme, entitling them to a maximum of 275,165 shares in total.

The total value of the 2013 programme at grant date, including social security costs, amounted to MEUR 4.3.

An additional incentive programme was approved by the AGM on April 24, 2014. The structure of this programme is similar to the 2013 programme. The performance target in the 2014 programme is based on Rezidor Group's cumulative earnings per share for the financial years 2014 to 2016.

Six members of the Executive Committee participate in the 2014 programme entitling them to a maximum total of 491,843 shares, of which the President and CEO is entitled to a maximum of 207,307 shares. 19 other members of management participate in the programme, entitling them to a maximum of 209,384 shares in total.

The total value of the 2014 programme at grant date, including social security costs, amounted to MEUR 4.7.

The net costs recognized in the income statement during Q2 2015 in accordance with IFRS 2 for the two incentive programmes amounted to MEUR 0.1.

A third long-term equity settled incentive programme was approved by the AGM on April 24, 2015 with similar structure as the 2013 and 2014 programmes. The maximum number of shares that can be awarded in the 2015 programme is 1,476,149. The subscription period is still open at the date of this report. More information will be given in the report for the third quarter.
